

DECOTRI™ TRIVALENT CHROME

MIXED SALT TRIVALENT CHROME

DecoTri™ produces bright chrome deposits without the hazards of hexavalent chrome plating. It is tolerant to current interruption without producing dull "white wash" effects and suitable for exterior applications.

EXCELLENT ALTERNATIVE
TO HEXAVALENT CHROME
DECORATIVE FINISHING

FEATURES:

- Elimination of hex chrome leads to reduction in waste treatment costs
- Special graphite anodes eliminate the creation of the lead sludge commonly associated with hexavalent chrome plating
- Excellent covering power across all current densities
- Micro discontinuous as plated leading to increased corrosion properties
- Meets the requirement of RoHS Annex XIV and is an excellent choice when implementing Annex XIV
