

HyProCoat™ 888

VERSATILE ORGANO-MINERAL TOPCOAT FOR
USE OVER ZINC & ZINC-NICKEL

MINIMIZE DRIP MARK
CONCERNS

HyProCoat 888 is a versatile organo-mineral topcoat for use over passivated zinc and zinc-nickel coatings. It was designed to enhance color, add gloss, and minimize drip marks. The nano-size polymer particles penetrate surface cavities of the passivation layer for improved adhesion and produce high clarity and passivate color retention.

FEATURES:

- Suitable for clear, blue, yellow, and black passivates
- Excellent corrosion protection
- Easily removed by alkaline solutions
- Immersion and spray applications
- Coefficient of friction over Zn ~ 0.15
